## GRAIN AND PRODUCE MARKET

Bearish Feeling Results from Anticipated Large World's Shipments.

VALUES OF SHORT DURATION

Wheat Started Weak and Lower Liverpool Cables Caused Values to Drop to a Still Lower

Level.

OMAHA, Oct. 3, 1908. Cables came extremely weak. Antid-pated large world's shipments, which are out Monday, produced a very bearish feel-ing. General selling from the start caused further declines and railles were weak and of short duration.

Receipts continue liberal and have taken the life from the cash market.

Receipts continue liberal and have taken the life from the cash market.

Wheat started weak on lower Liverpool cables and selling at the opening again caused values to drop. The anticipation are large world's slipments for the past week was used as a strong bear factor. December wheat opened at 33%c and closed at \$24.6.

The corn market was in the hands of the bears from the opening and prices were pounded again for a rurther decline. Cash corn was weak and buyers are only taking enough to tide over for the new crop. December corn opened at 90%c and closed at 59%c. Primary wheat receipts were 2,047,000 bushels and shipments were 62,000 bushels, against receips last year of 538,000 bushels and shipments of 1,165,000 tushels. Corn receipts were 319,000 bushels and shipments were 216,000 bushels, against re-

ceipts last year of 74,000 bushels and ship-ments of 755,000 bushels... Clearances were 5,000 bushels of corn, 8,000 bushels of oats and wheat and flour

equal to 684,000 bushels.
Liverpool closed 3sd to 1d lower on wheat and 3sd to 3sd lower on corn.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, Get. 3 .- Wheat prices on the

CHICAGO, Oct. 1.—Wheat prices on the local exchange declined more than 1 cent today as a result of weak foreign markets and continued liberal movement of new wheat in the northwest. At the close net losses for the day were % it to 1½ c. Corn, oats and provisions were also weak.

Extreme weakness prevailed in the wheat pit almost all of the short session, the market being without any material support. Every commission house seemed to have soiling orders to execute when trading began and during the entire day selling continued general. A decline of id in the price of wheat at Liverpool and heavy receipts at Minneapolis and Duluth were largely responsible for the selling pressure, and later, because of light export demand, was an additional incentive. Seaboard reported 12 hoatloads, mostly durum and Manitoba wheat, for export. The market closed weak at almost the low point Clearances of wheat and flour were equal to 684 bit. Primary receipts were 2,047,000 hu.

Clear weather throughout the corn belt and the slump in wheat induced free selling of corn, which resulted in declines of more than le in the nearby deliveries and of about &c in the May and July options. Prices at the sample tables were down 142 le, and considerable corn was sold at the decline. Local receipts 117 cars with 77 cars.

Prices at the sample tables were down 142 ic. and considerable corn was sold at the decline. Local receipts, 117 cars, with 37 of contract grade.

Oats followed wheat and corn in their downward course, but the declines were less severe final quotations showing losses of 147%. At the sample tables prices were off 147%. Local receipts were 198 cars.

The slump in the grain market had a depressing effect on provisions. The market closed easy with prices a shade to 567%.

Ner. Estimated receipts for Monday: Wheat, 31 ars: corn. 99 cars; oats, 172 cars; hogs, cars; corn, 99 cars; oats, 172 cars; hogs 25,000 head. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Tes'y.

NEW YORK STOCKS AND BONDS

Market Continues to Feel Effect of Friday's Stimulation. UNION PACIFIC STILL IN LEAD

Rise Has Favorable Effect on Other Railroad Issues-Demand for Currency in

mand for Currency in

Interior.

NEW YORK, Oct. 3.—The stock market continued to feel the reviving effect of yesterday's stimulation of speculation in Union Pacific by the favorable showing of August net earnings by that road. Union Pacific continued to lead the market and to exercise a dominant sympathy on the whole list. Yesterday's movement on Union Pacific started on the assumption that the restoration of gross earnings to practically the August rate of last year and its rise in net to materially above made it an exception to the tendency seen to prevail in the reports of other railroads thus far received for that period. The fact that the Union Pacific report was exceptional did not preclude a general response in other railroad stocks to the upward movement on it. The close sympathy was shown by Reading and St. Paul stocks.

Wool Market. Wool Market.

LONDON, Oct. 3.—WOOL—The London wool gales were continued today, with offerings of 13,547 bales. There was active competition for merinos, and fine grades ruled firm, with low sorts about 5 per cent below the July average price. Fine greasy cross-breds were unchanged; but inferiors were trregular. Americans purchased medium cross-breds at 5 per cent decline. The supply of scoured slipped cross-breeds was heavy and they were rather slow to sell. Next week \$1,760 bales will be offered. Today's sales follow: New South Wales. 2,800 bales; scoured. 11½d@1s 8d; greasy. 5½d@1s 2d. Queensland, 2,700 bales; scoured. 18@1s 8½d; greasy. 5½d@1s 2d. Victoria, 700 bales; scoured. \$1½d@1s 8½d; greasy. 6d@2s. ls 2d. Queensland, 2.700 bales; scoured, ls & sid: greasy, 5½(2)1d. Victoria, 700 bales; scoured, 5½(2)1d. S½d; greasy, 4d2)1s. Cape of Good Hope and Natal, 200 bales; scoured, 1sg1s 8d; greasy, 520½d.

ST. LOUIS, Oct. 3.—WOOL—Firm; medium grades, combing and clothing, 102/20c; light fine, 152/25½c; heavy fine, 112/12c; tub washed, 20227c.

Evaporated Apples and Dried Fruits. NEW YORK, Oct. 3.—EVAPORATED APPLES—Market is practically nominal. November deliveries can be bought for 6c, but buyers show little interest. Early new crop apples in cases range from 5% to 6c; choice to fancy, 1907, at 709c; lower grades, DRIED FRUITS-Prunes continue unset-

DRIED FRUITS—Prunes continue unsettled on the coast owing to apathy on the part of eastern buyers. Spot quotations range from 4c to 13c for California and 5%c to 7%c for Oregon fruit. Apricots are hold well up to recent prices, choice being quoted at \$4,35%c; extra choice, \$4,35%c; extra choice, \$4,35%c; extra choice, 7% of the choice quoted at 737%c; extra choice, 7% of the choice quoted at 737%c; extra choice, 7% of the choice quoted at 737%c; extra choice, 7% of the choice quoted at 737%c; extra choice, 7% of the choice to fancy seeded. 6% of the choice to fancy seeded. Motal Market.

NEW YORK, Oct. 3.—METALS—Markets were quiet in the absence of cables, with tin quoted at \$29.374/2026.634 Copper was dull, with take quoted at \$13.374/20 15.624; electrolytic, \$13.124/2013.374, and casting at \$12.874/2013.124/2 Lead was easy at \$1.424/2044.474. Speiter was dull at \$4.724/20 4.7746. ST. LOUIS. Oct. 3.—METALS—Lead, quiet at \$4.25464.85. Spelter, quiet at \$4.65.

were logated higher for the week. The trade was active practically every day, there being a large attendance of country buyers and, though receipts were large, the supply was kept well cleaned up. Common to medium feeders, while not as free sellers as the better grades, sold fairly weil and at the close of the week the market on the general run of stuff might be called as much as loc higher.

Quotations on cattle: Good to choice corn-fed steers, \$4.0005.50; fair to good corn-fed steers, \$4.0005.50; good to choice range steers, \$4.0005.50; good to choice grass cows and helfers, \$2.005.30; common to fair range steers, \$4.0005.50; good to choice grass cows and helfers, \$2.005.30; common to fair range steers, \$2.5504.50; good to choice corn-fed steers, \$2.5504.50; good to choice grass cows and helfers, \$2.005.30; common to fair range steers, \$2.5504.50; good to choice corn-fed steers, \$2.5505.50; good to choice corn-fed steers, \$2.5505.

to possibly a little firmer in spots. On the other hand the fair to pretty decent kinds, as well as the common and inferior loads, were slow and weak to lower, the same as they have been on a good many days of late. In fact, as has been pointed out before this, the market has a good deal of sameness about it in that common to medium hogs are slow and weak almost every day.

For the week the receipts of hogs show very little change as compared with recent sweeks, but quite a little failing off as compared with a year ago. The market for the week has been very uneven, showing both ups and downs, with the general tendency downward. At the close of the week the average market is about 7½c lower. A feature of the week's trade is the discrimination on the part of packers against common and trashy loads and everything that is not thoroughly fattened. This means that the price is fixed by the Representative sales: Representative sales:

SHEEF-There were no fresh receipts sheep today and nothing upon which to base an estimate of the market. There was thing of that kind here.
For the week the receipts foot up 102.907

sell decidedly higher had there been shy thing of that kind here.

For the week the receipts foot up 102.507 head, which is a very liberal run, and though smaller than hast week's total by almost 20.000 head, still it was the largest of any week so far this year, with the single exception of last week. The arrivals consisted very largely of feeding lambs, with only a moderate number of killers from day to day. Not a single bunch of strictly choice fat lambs arrived during the week to put a top on the market. Under the influence of moderate receipts and a very good buying demand the market on fat sheep steadily strengthened up during the week to put a top on the market on fat sheep steadily strengthened up during the week being at the close safely 250.000 higher than one week ago. Fat lambs gained in strength even more rapidly than sheep, and while there was nothing very choice here to show the full strength of the market, it is safe to quote an advance for the week of 350.000. The lambs market has, in fact, taken a sudden boom, prices soaring upward in a most make at the end of the season makes to possible to give even the most connervative fluore fluored to the stronger than the receipts and the strength of the market, it is safe to quote an advance for the week of 350.000. The lambs market has, in fact, taken a sudden boom, prices soaring upward in a most more important as a natural resource as the timber supply dwindles.

The trade on feeders, both lambs and sheep, was in a very attisfactory condition throughout the week. The demand was very good, so that the trade on most days was active, and in spite of the fact that receipts were large, early clearances were generally effected. Owing to competition on the part of country buyers prices on a good kinds firmed up and are a little stronger at the close of the week. The medium kinds have not shown much change, taking the market as a whole.

Quotations on range or grass sheep and lambs: Good to choice lambs, is certain.

Boy Ce Coming the fact that each three t

lings, \$4.1094.00; good to choice heavy year-lings, \$4.0094.25; feeding yearlings, \$3.709 \$4.90; good to choice wethers, \$3.9094.10; fair to good wethers, \$3.9093.50; feeding weth-ers, \$3.4093.55; good to choice ewes, \$3.909 \$2.85; fair to good ewes, \$3.0093.50; feeding ewes, \$2.0092.75; culls and bucks, \$1.0092.50; about had there been no protection.

YEAR OF GREAT FOREST FIRES Northern Half of the Country Serionaly Damaged--Problem of

The forest fires which have just laid waste whole counties in Minnesota, Michigan, and extended into Wisconsin, destroying many towns and making thoussands of persons homeless, have focused the attention of both government and state forest officers on the enormous losses of forest wealth which will be

Lumber Protection.

checked up to the year 1908. In the whole northern half of the United States the reported destruction by forest fires has been terrific, and it is likely that the year will go down as one of the worst in the last quartercentury. It seems that no part of the country has escaped the work of the devastating flames. The latest disasters in Minnesota, Michigan and Wisconsin are the worst of the many that have visited the lake states this year. Other sections have also suffered from forest fires during the spring and summer months, and the people of the Pacific coast, the Rocky mountains, and the New England states and Canada have had a thorough, and in some cases a continuous, experience in fire-fighting.

It is doubtful whether this year's actual osses from forest fires will ever be known, but it is certain that they will run up so high in the millions that the country will be startled when a compilation of statistics at the end of the season makes

they are insignificant when one considers Although the fire menuce has been seri-

ous in all sections, officers of the forest service estimate that the total cost of subduing the fires in all the national forests during the season, exclusive of the salaries of forest officers, will not be more than \$20,000. This sum is small when it is remembered that it means fire protection for approximately 168,000,000 acres of national forests. Progressive state fire wardens and forest officers, individuals and private corporations having large timber holdings, have organized fire-fighting forces along much the same lines as the government in many cases, and in this way they have given protection to millions of acres of timber which might otherwise have been dostroyed had they been left unprotected --Harper's Weekly.

## BULLETS CURE FOR PARALYSIS

Remarkable Result of a Murderous Assault on Defenseless Mnn.

The shots almed to kill David F. Rowe

f Philadelphia, really effected a wonderful cure. Prior to the murderous assault on him by his son-in-law, Casper Cooper, Rowe had been for a long time a paralytic on the right side. When taken to the Pennsylvania hospital after the shooting, his death was expected in a few hours, but instend of that he left the hospital last week, and now declares that every vestige of paralysis is gone and that he feels better than he has for years.

It is less than three weeks ago that Rowe was shot five times by Cooper, who then committed suicide. Cooper fired at his father-in-law as the latter lay helpless and paralyzed on a couch, unable to do anything to defend himself. When he left the capital Rowe's arm still contained three of the leaden pellets, his thumb was still in splints from a wound that cut to the bone, and cotton bandages covered a fresh scar on his breast. In spite of his 60 years he has been up and about ever mnce, with not a trace of paralysis left. He even went so far yesterday as to visit his farm, some distance from his home.

In the very room in which he was so surderously assaulted, at his home, No. 1517 North Fifty-ninth street, he stood erect and laughingly told how ha positively refused to die because the hospital physicians said he would; but instead had been wonderfully cured.

"It's a miracle that I lived; but the marvelous part of my recovery lies in the fact that the shots cured me of my paralysis," said Rowe. "The day the shooting happened, and a long time prior to that, my entire right side was paralyzed. I had to drag my right foot and my right arm was useless. But today the paralysts has entirely gone, my right foot is as good as my left and the right arm has almost returned to its full strength. No. I do not attempt to explain the matter. Nor have the doctors attempted to go into details, or even express an opinion, and I am satisfied to know that I am whole again.

"I first knew of my ability to use my arm after I had been in the hospital three days. I almost doubted my senses, but it was a fact. Then the side got right and when finally I was able to get out of bed I found my foot in good shape. Today I feel in better health than for a long time." -Philadelphia Inquirer.

WISE BIRD IS THIS CROW Gets Hts Breakfast Every Morning on

a Passenger Train in California. Tales of the big gulls which accompany

the army transports all the way in he long journey from San Francisco are not infrequent, but it has remained for a California crow to wear the laurel, If ou pass Hornbrook any fine morning at 30 o'clock sharp and crane your neck out of the Pullman window up toward the sky you will observe a fine black devil of a row sitting complacently in the tapmost branches of an old pine, preening his feathers and apparently half asleep. But he is far from being asleep. On the

this hour as it comes tearing along the road. As the cars approach the tree there is a subdued, stately flutter of two black wings. Master Crow rises slowly into the air and picks up No. 14 with the abandon and ease of a crow hobe as it passes. He drops to the roof of the car as if it were his rightful home, and though the engineer has tried every way to play a joke on him by tooting the whistle, ringing the bell madly and making a general racket, the crow-solemnly refuses to be dislodged. He is an old friend now and the

ontrary, he is very much awake, for he
